User Manual

Thank you for choosing our CardLight.
CardLight is designed as promotion product. It can be used indoors as well as outdoors. It is waterproof and can be used in the rain or snow. CardLight is especially helpful as follows:

1. Used as a key chain.
2. Used as a key light or mini-torch. Turn on the light by pressing the built-in button and the light can be kept by holdpressing the button. The light shall be turned off automatically by releasing the button.
3. Used as a signal sender (e.g. SOS) manually controlled by built-in button.
4. The solar version: Integrated a Solar Module for environmental-friendly charging by sunlight.

Please read the user manual carefully before using the product!
The user manual is one part of the product. It includes important instructions for the usage and disposal of product. Always keep the user manual for reference! It must be transferred to third persons together by handing out the product.
